4 More Problems in "the Back 40"

My pair of Canada Geese in "the Back 40," the miniature game preserve behind my residence, set up a nest several weeks ago, and I went out to check it almost every day, finally establishing the egg count at 7.

But the number diminished overnight. This morning I was greeted by the old pair, off the nest and herding four brand-new goslings. We'll try for a family picture probably tomorrow.

The adults were not as belligerent about the goslings as they were when I had approached the eggs. The goslings were absolutely unafraid. I picked up one, and the hen courageously flogged me. Nor did I get any thanks when I put it down.

Day-old Canada Geese bear no resemblance to their parents. The grown Honker is slate-colored, with a white dentists' bandage around its jet-black neck, male and female being identical. But a day-old gosling is no slick chick—four times the size of a baby duck, with a rough, dirty-brown plumage.

But in a few weeks the adult feathers will be coming out, the baby down coat will molt off, and the neck will clear up as jet-black with a white neckband.

But there's an operating problem in the Back 40. I had the adult Honkers' flight wing-bones trimmed just enough to keep them from making sustained flight. But the offspring are free to take off. A month or so ago I reported that Junior, the first gosling gander, hatched in 1969, took off for the Spring migration to Canada—but I was wrong. Migration was his intention; however, he was too hefty to make it.

I learned that Billy J. Walton, found him in front of the Fina service station, Third and Walnut Sts., trimmed his flight feathers, and put him on a pond. Walton promptly returned the bird which is once more in the Back 40.

The 1970 hatch was a single gosling, which the old gander was put in charge of while the hen tried to hatch the last three eggs. But the gander let the gosling swim in the waterfall pool too long and the little fellow drowned.

Now I have four more coming along, and the problem is, how are we going to launch five young geese successfully on the migration north next Spring?

I am having trouble getting leg-bands for all the geese, but eventually I'll get them banded, trusting the public to notify me if they are grounded locally by overweight.

Or possibly I will ask Hempstead Hunting Club for permission to turn the youngsters loose in Grassy Lake in January, so they can get in shape to join the Flying V when one comes along heading for Canada.

Three Fined in News Case

FORT SMITH, Ark. (AP) — Three youths were fined \$27 each in municipal court here Monday for soliciting without a permit in connection with the selling of an underground newspaper in the city last Friday.

Fined were David G. Weese, 17, and Burrell W. Stephens, 18, both of Fort Smith, and Kathryn Inez Brandrum, 19, of Van Buren. Each pleaded guilty.

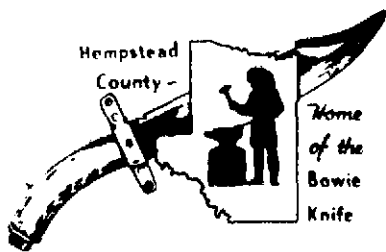

None was a student at the University of Arkansas at Fayetteville, where the newspaper, the Ozark Mountain Times, is published.

Assessor Is Opposed to Reassessment

Tax Assessor Carter Sutton is opposed to reappraisal of property in Hempstead County because total assessed valuation is 18 per cent of value which is the amount required by law. Assessments for 1969 were \$17,472,205 and for 1970 are \$18,945,529, making a gain of \$1,473,324 for this period. Assessment on timber acreage in the county was raised in 1969 and assessment on all rural acreage was raised in 1970.

The cost of hiring an outside appraiser to come into the county and make a complete reappraisal would cost the taxpayers an estimated \$85,000 and this seems an unnecessary expenditure.

Taking into consideration the gain in assessments for the coming year, it appears that an overall reappraisal would be a costly and unnecessary burden to place on the taxpayers of Hempstead County.

Army Base Bank Robbed of \$250,000

NEW YORK (AP) — Two masked holdup men escaped with \$250,000 from a branch bank in Brooklyn today while a third companion held 13 persons hostage in a Staten Island home, police said.

Police said some of the hostages, held all night, were related to the bank's manager, Charles A. Di Sogra, who also was held captive and forced to open the bank's vault. All were released unharmed, police said.

Police said the three armed men invaded Di Sogra's home on Staten Island Monday night and took him to his sister-in-law's home where a total of 13 people were held hostage.

While one bandit remained with the hostages, two of the men forced Di Sogra to drive them to the Ft. Hamilton branch of Community National Bank and Trust Company in Brooklyn at about 7:30 a.m. and ordered him to open the bank's safe.

Police said Di Sogra had only part of the combination of the two-lock safe, and the holdup men had to wait for a woman cashier to arrive to open the lower part of the vault.

Checking on Whether You Are Victim or Victor in Rat Race

By HAL BOYLE
NEW YORK (AP) — One of the problems of modern America is that you must personally check where you stand in the pecking order.

Your position—and it can change fairly quickly—determines whether you are largely a victor or mostly a victim in life's rat race.

Sometimes it's difficult to say, conditions being as they are. But there are numerous guidemarks that point the way.

For example, there is little doubt you're still faring pretty well if —

They have to tear down and reconstruct four tunnels in order to get your yacht from one ocean to another.

Your basement has wall-to-wall carpeting.

A glance through your autobiography book would show the signatures of Julie Andrews, Joe Frazier, President Nixon, and J. Edgar Hoover—and a note from Norman Vincent Peale expressing disappointment at your inability to accept his invitation to lunch.

You keep an extra pair of golf shoes in the bottom drawer of your office desk.

Instead of one love nest you maintain two because you're the kind of fellow who never likes to be caught short of anything.

TWO POLITICAL MINDS with but a single thought? So it might appear from similar pensive poses struck by President Nixon and the Democratic opposition's current front-runner, Maine's Sen. Edmund Muskie, but at unrelated occasions. The President was snapped at a White House interview and Muskie at a gathering in Washington of mayors and other city officials.

Says Present Federal School Plan Helping Keep a Dual System

By WILLIAM J. WAUGH
AP Education Writer

WASHINGTON (AP) — Public Negro colleges in several Southern states are finding it virtually impossible to expand or integrate their schools as federal funds are poured into competing predominantly white institutions.

Although a federal judge ordered Southern educators three years ago "to dismantle the dual system of higher education ...," an official in the Department of Health, Education and Welfare said, "Present federal policy is helping perpetuate the dual system."

An Associated Press study found that newer, mostly white schools in such cities as Nashville, Montgomery and Huntsville, Ala., are growing larger in direct competition with long-established publicly supported black schools in the same cities.

The study also found that of \$72.3 million in federal land grant funds given to Alabama, Louisiana, Florida and Tennessee last year, \$71.8 million went to four predominately white schools and \$497,985 to an equal number of black institutions in those states. The white schools have a 6-to-1 enrollment edge, but they had more than a 140-to-1 edge in federal land grant funds.

Wages, Prices Spotlight the Economy

By BILL NEIKIRK
Associated Press Writer

WASHINGTON (AP) — The White House said today employment in the steel industry will be sharply reduced if it is faced with a large wage increase later this year.

In its third "inflation alert," the Nixon administration said the steel industry is confronted with strong international competition and added that increases in wage costs would significantly erode its competitive position.

"Protection of the steel industry from the full consequences of a deteriorating position in international competition, on the other hand, would reduce the ability to meet foreign competition for industries which are major users of steel, with a consequent reduction in employment opportunities in those industries," the inflation alert said.

The alert avoided direct comment on wage demands by the United Steel Workers Union, totalling 32 per cent over the three-year life of the contract, but it focused on a recent wage increase in the can industry averaging 9 per cent a year over the life of the contract.

"The terms of the agreement reached in the can industry are clearly in excess of any realistic assessment of long-term productivity growth prospects," the White House said.

The inflation alert said the can industry settlement usually is a pacesetter for wage nego-

Says Another Middle East War Coming

By THE ASSOCIATED PRESS

President Jaafar el Numairi of Sudan told an Egyptian newspaper today he is "positive that another war is undoubtedly coming between the Arab countries and Israel."

Sudan is allied with Egypt and other Arab countries in the Middle East.

Egypt's official Middle East News Agency said Numairi told Cairo's Al Akhbar the United States "is taking an active part in the conflict against the Arabs" and there is no hope of keeping America neutral in the Middle East crisis.

Numairi was commenting on Egypt's efforts to persuade the U.S. government to pressure Israel into a commitment for withdrawal from Arab territory occupied during the 1967 war and thus pave the way for a peaceful settlement of the conflict.

On Monday, Egyptian officials rejected a suggestion by Israeli Defense Minister Moshe Dayan to withdraw Israel's troops from the Suez Canal under a permanent cease-fire and agreement that no Soviet or Egyptian troops will cross the canal.

The Egyptians insisted their forces must occupy positions on the Israeli-held side of the canal and that "Egypt will accept nothing else."

The Sudanese leader, in Cairo for talks with the leaders of Egypt, Syria and Libya on the latest developments in the Middle East crisis, said renewed fighting in Jordan between King Hussein's army and Palestinian commandos, is "part of a premeditated conspiracy aimed at completely destroying the Palestinian guerrilla movement."

In Amman, floods caused by heavy rainfall over the last two days forced Hussein's troops to halt a house-to-house search for Palestinian guerrillas and go to work rescuing inhabitants of the Jordanian capital.

Several residential areas and the main business center of Amman were awash. Many shops collapsed and three children were swept away by the flood waters.

U.S. Reassessing the Vietnamization Plan After Laos Failure

SAIGON (AP) — U.S. officials are reassessing the Vietnamization program because of the disappointing South Vietnamese performance in the Laotian invasion and the current North Vietnamese offensive in the central highlands.

It was learned today that the U.S. 7th Air Force is planning a complete reorganization and consolidation of its squadrons in South Vietnam in an effort to become more proficient in providing cover for withdrawing American forces.

During the cutback of 100,000 more troops between May 1 and Dec. 1, reduction of the 40,500 Air Force personnel will

Crackdown on Double Parked Trucks

The Hope City Police Department said today that it was receiving an increasing number of complaints about delivery trucks double-parking in the streets while taking merchandise into the stores in the downtown area.

It was pointed out that this constitutes a violation of the city's traffic laws. Some of these trucks have been known to block busy streets at or near an intersection, sometimes in front of a traffic light, causing a hazard to other traffic and pedestrians. It has been the custom in the past simply to warn the offenders and to make them move the trucks.

However, effective immediately, tickets will be issued to drivers of these trucks if found in violation of the Code of Ordinances.

The police department said that this matter was related somewhat to the overall parking situation in downtown Hope. It was noted that cars sometime block the downtown alleys, making it impossible for delivery trucks to reach the back door of certain businesses. It was noted too that some of business houses have abused the loading zones which are established next to the curb for the use of all persons desiring to make deliveries in the block.

Some merchants have used these loading zones for private parking places when they were not in use by one particular store thereby blocking the loading zone and making it impossible for any other delivery trucks to use the space.

The department asked cooperation of all merchants and suppliers in helping to improve the parking and traffic situation in downtown Hope.

FAYETTEVILLE, Ark. (AP) — Pauline F. Stormont, 27, a student at the University of Arkansas, was stabbed to death Monday night about two blocks from the university campus.

Police Chief Hollis Spencer said Miss Stormont, a sophomore from Ozark, had been stabbed about seven times. She died at a Fayetteville hospital less than two hours after the incident occurred.

Spencer said a 17-year-old boy had been arrested in connection with the stabbing, which occurred near Miss Stormont's apartment.

Officers said Miss Stormont was walking down the street about 9:45 p.m. on her way home from the university library when she was attacked.

Police said persons had told them they had seen a person following her.

2000 Troops Trying to Lift Siege

SAIGON (AP) — Some 2,000 South Vietnamese troops launched a drive today to lift the two-week-old siege of Fire Base 6 in the central highlands after U.S. B52 bombers prepared the way with 600 tons of bombs.

The big bombers attacked North Vietnamese positions within a mile of the eastern side of the base close to the Laotian and Cambodian borders. It was the heaviest B52 attack in the central highlands in nearly a year.

Four battalions from South Vietnam's 22nd Infantry Division moved up for the drive to relieve the less than two battalions hanging on at Fire Base 6. But no ground contact with the enemy was reported.

With elements of two North Vietnamese infantry regiments and one artillery regiment reported in the area, some South Vietnamese paratroop units which participated in the Laotian invasion were flown from Quang Tri to the central highlands as a ready reserve force.

U.S. C130 cargo planes dropped two more 15,000-pound blockbuster bombs on North Vietnamese troop concentrations on the western side of the base. Two of the big bombs were dropped on enemy positions Monday, the first time in the war that 15,000-pounders had been used against troops. Heretofore, the bombs had been used to blast out landing zones for helicopters in the jungles; the biggest bomb used against enemy positions had been 3,000 pounds.

U.S. officials were reassessing the progress of the Vietnamization program in light of the disappointing South Vietnamese performance in Laos and the current enemy offensive in the highlands. Informed sources said as a result, reduction of the 40,500 U.S. Air Force personnel, still in Vietnam will likely be kept to a minimum during the 100,000-man cutback President Nixon has programmed for May 1-Dec. 1.

County Still Big Killer on Highways

The Arkansas State Police in its monthly statistical review reported today that 37 persons died in traffic fatalities during the month of March. According to State Police figures, this is 8 fewer deaths than were recorded over the same period a year ago. This brought the states highway death toll for the year to 123 as compared with 131 for 1970.

Captain Milton Mosier, District Commander of the Hope District for the Arkansas State Police said that 8 persons died during the month of March on Arkansas highways in the Hope district. Counties in the district recording deaths were Hempstead with 3 deaths, Clark 2, Miller 2 and Little River 1 death. Howard, Pike, Sevier, Nevada and Lafayette counties were free of traffic fatalities during the March reporting period.

Mosier said Troopers in the 9 county area investigated 89 accidents. Miller county experienced the highest rate during March recording 18 accidents followed by Clark 15, Little River 13, Hempstead 12, Sevier 11, Howard 7, Nevada 6, Pike 4 and Lafayette 3.

The report indicated that failure to yield the right of way was the leading contributing cause in the accidents followed by excessive speed, improper passing, inattention, following too close, drinking, and driving on the wrong side of the road.

The 37 traffic deaths during March occurred in 33 fatal collisions. State wide Troopers investigated 933 accidents during March.

Captain Mosier warned motorists that vacation time is approaching and to use more caution when traveling the states highways.

Russia Trying to Help Cuba Economically

By GEORGE GEDDA
Associated Press Writer

WASHINGTON (AP) — Soviet technicians are being sent to towns and cities all over Cuba in what U.S. officials regard as a novel attempt to revitalize the island's sagging economy.

"They're actually being incorporated into relatively low-level positions," said one U.S. official, noting the move is one of several examples of a growing Soviet role in the Cuban economic structure.

Officials say the Soviet Union began taking a more active role in Cuba following Prime Minister Fidel Castro's admission last year that his economic policies had not worked.

There is official speculation here that assignment of Soviet technicians to areas far removed from Havana may be linked to what U.S. officials see as an effort to restructure the Cuban economy.

These officials say the effort involves tailoring the Cuban economy to complement economies of the Soviet Union and of Communist East Europe.

Under this approach, Cuba would avoid production of some goods manufactured by its socialist colleagues in Europe and concentrate on items it can produce efficiently for sale to European allies.

Another element of the close cooperation between the Kremlin and Havana was the signing late last year of a bilateral economic cooperation agreement, effective 1971 through 1975.

The agreement, according to U.S. officials, provides for a more active role in Cuban economic planning and for continued economic assistance. Estimates of this assistance range between \$380 million and \$500 million annually.

Since the early 1960s, U.S. officials say, Soviet aid has averaged about \$1 million daily.

The Kremlin's aid to Cuba's eight million people over the past several years has exceeded the entire U.S. development program for Latin America's 280 million people.

By Castro's own admission, the Cuban economy remains in poor condition, despite massive injections of Soviet aid.

channel more federal funds into predominantly black schools. While some black educators fear that merger of black schools with their white counterparts would mean scores of black administrators and teachers would lose their jobs, they also believe that black schools will never achieve a balanced black-white enrollment so long as competing white schools remain open.

Said Dr. Henry Ponder, black vice president of academic affairs at Alabama A & M in Huntsville, Ala.: "As long as white parents have a choice, they are going to send their children to a white school. If they had only one school, parents would send them there."

Twice opponents of the dual system have gone to court in unsuccessful efforts to stop the building of new predominantly white campuses in Nashville and Montgomery.

The 1968 decision by U.S. Dist. Judge Frank Gray Jr. called for dismantling the dual system but refused to halt construction of a \$5 million downtown branch of the University of Tennessee, started 11 years ago as an evening school across town from Tennessee State University, which has 70 whites among its 4,400 students.

tations in the basic metals industries, including steel.

The inflation alert on other matters also hit hard at taxicab fare increases in New York City. It said the problem stems from a legal restriction on the number of taxicabs which may serve the public.

The report said taxicab fares in New York increased recently by an average of 48 per cent, and it noted that the number of cabs permitted to operate in the city has not been increased since 1937. As a result, it said, cab fares in New York are more than twice the level of Washington, D.C., where no restrictions are in effect.

"Such restriction of taxicab service to the public helps maintain high fare levels and reduces employment opportunities for those with little formal education," the alert said.

The alert also focused on wage and price increases in railroad freight rates, lumber and plywood prices, petroleum, meat prices and construction.

But the key part of the report dealt with the steel industry, where a contract with the United Steel workers is due to expire August 1.

CLYDE FOUSE

Clyde Fouse was guest speaker at the weekly luncheon of Hope Lions Club Monday at Town & Country.

He discussed the need for more money on the county and city level for improvements in streets, services and schools. Since the schools get the larger part of county tax money its needs were emphasized in his address.

The explosion of progress in science since World War II has created a need for more equipment, books, better trained teachers in that field, Mr. Fouse said.

We tend to get used to our surroundings and conditions and fail to see things as they are and when an industry head from outside comes to consider relocating he sees the conditions differently than we do at home, Mr. Fouse continued.

He said that no one had all the answers but felt that an outside professional appraiser could probably do the best job in ap-

praising and assessing town and county property to bring in more money. A discussion followed his talk.

Don Freel arranged the program. Vince Hummers, TGY official of Houston, Texas was the guest of Calvin Smith.

Wants Frozen Funds Released by President

By JOHN CHADWICK
Associated Press Writer

WASHINGTON (AP) — The chairman of the Senate Appropriations Committee said today Congress may have to refuse administration spending requests if President Nixon doesn't unfreeze nearly \$13 billion in appropriated funds.

At issue, said Sen. Allen J. Ellender, D-La., is whether the executive or legislative branch will determine spending priorities.

Ellender expressed doubt a suit against the administration, as proposed by Democratic Leader Mike Mansfield, would solve the problem. But he said Congress has other alternatives "if it decides to get tough."

One possibility, he said, is "for the members of Congress, individually and as a body, to say 'no' to other policies whose approval is being sought by the President."

"It may be that in the long run this will prove the most effective," he added. Ellender said that "although in the past I have tried to judge each issue on its merits, I myself am being brought around slowly to this point of view, particularly in areas where it seems the welfare of foreigners is being given priority over that of our own people."

6000 Slain in Pakistan Rebellion

By DENNIS NEELD
Associated Press Writer

DACCA, East Pakistan (AP) — A cowed, submissive city with up to 6,000 persons slain by the army and at least 24 city blocks devastated.

The crack of rifle shots still punctuate the night as the West Pakistani troops round Awami League officials, intellectuals and other prominent Bengalis.

"This is Gestapo rule," commented one Western diplomat. "The army has committed mass murder."

President Agha Mohammed Yahya Khan's troops patrol the smoldering city in Jeeps and commandeered trucks, their rifles and submachine guns at the ready.

In teeming working-class districts, a black wilderness of ashes and charred bamboo stumps is all that remains of the flimsy homes where thousands of families lived.

The city is under curfew from 9 p.m. to 5 a.m. Many families sit at home at night with their lights off, hoping they won't be visited by foraging troops and looters.

The soldiers stormed into Dacca on the night of March 25 to crush the movement of Sheikh Mujibur Rahman, leader of the Awami League who had demanded virtual autonomy for the 75 million people of East Pakistan, most of whom are Bengalis.

Sheikh Mujib was arrested and his followers are being hunted down.

The flags of Bangla Desh—the independent state that the Bengalis tried to create—have been hauled down or burned. A forest of green and white Pakistani flags flutter over public buildings.

The Hindu Minority also is being subjected to the army's fury. A European reported a neighboring family of six was murdered in their home. No one dared to go to their aid.

Thousands of families are still fleeing to their native villages.

Dacca University remains closed. Student dormitories are strewn with litter and pocked with bullet holes.

Some observers estimate that 300-500 students were killed when they attempted to resist the army.

Some persons claim they saw many students lined up against a wall and shot.

At least eight prominent professors were killed.

Troops from West Pakistan continue to arrive by air and are now said to number 10,000 in Dacca and about 36,000 in all of the province.

Seven Miners Killed in Illinois

GOLCONDA, Ill. (AP) — Seven Southern Illinois miners killed by poisonous gas deep underground Monday had wandered into a forbidden area despite warnings, mine officials say.

Wayne Faller, manager of the Barnett shaft of the Ozark Mahoning Fluorspar Co., said mine officials "knew there was a stronger concentration of gas than normal" in the area. He said they had warned the men to say out of that part of the mine.

But he said that when one miner entered the area 800 feet underground, six others followed in an attempt to rescue him. All were overcome by deadly hydrogen-sulfide gas.

Five of the victims were dead when they were lifted from the mine shaft. The two others died later in a hospital in nearby Rosiclare.

C. W. Sohowsky, office manager of the mining firm, said 16 workers were in the shaft when they reached the pocket of gas. Nine of the men scrambled for clean air when the others failed to return from the forbidden area, he said.

likely be kept to a minimum, sources said, with perhaps only one air wing pulled out.

The sources said that under the new program, certain types of aircraft will be consolidated instead of being spread over the country. They said this should provide for faster maintenance, keep more airplanes in the air and help offset the withdrawals.

Both the Laotian operation and the current North Vietnamese offensive in the central highlands point up one major weakness of Vietnamization. This is the South Vietnamese dependency on American air power. The South Vietnamese air force does not have enough planes or firepower yet to do the job alone, U.S. officials say.

U.S. B52 bombers and tactical fighter-bombers have helped contain the offensive in the central highlands and apparently have kept besieged Fire Base 6 from being overrun a second time. While South Vietnamese fighter-bombers fly some missions in support of the base, they must be supplemented by U.S. bombers.

U.S. helicopters also have played a prominent role in the defense of Fire Base 6, providing gunship support and supplying the base under heavy fire.

The North Vietnamese siege of the base, near the tri-border juncture of South Vietnam, Cambodia and Laos, ended its second week today.

not true," when asked if the administration's Vietnamization program was being reassessed in view of the results of the Laotian campaign which ended earlier this month.

On the Middle East, Laird confirmed reports the Soviet Union has stepped up shipment of sophisticated weapons to Egypt.

He said the United States was keeping a close watch on the situation and repeated President Nixon's pledge that "the administration will see that a proper military balance is maintained" in the Mideast area.

Legislature Will Be Able to Adjourn

LITTLE ROCK (AP) — The Arkansas legislature apparently will be able to go into final adjournment next Monday.

Officials reported Monday that no procedural or mechanical errors had been found that would require legislative correction and therefore necessitate the General Assembly to return at noon Monday to correct.

HELEN HELP US!

by Helen Bottel

YOUTH ASKED FOR IT

This column is for young people, their problems and pleasures, their troubles and fun. As with the rest of Helen Help Us!, it welcomes laughs but won't dodge a serious question with a brush-off.

Send your teenage question to YOUTH ASKED FOR IT, care of Helen Help Us! (this newspaper).

"GROW UP SLOW" IS COLUMNIST'S ADVICE

Dear Helen: I look 17 and nobody would guess I'm only 13, except my mother keeps bringing it up.

We've just had another big old argument. I'm sick of lectures so please make your answers sharp and clear so my mother will get the point. My questions are:

1. Should a very mature girl of 13 be allowed to car-date at night?

2. What's your opinion of a real sweet guy who helps her "escape" and sneak out? He's 17, but drinks only wine and beer.

3. If you were the girl's mother, what would you say to him when you found out?

4. Thank you for being on my side.— FLORENCE

Dear Flo:

1. No.
2. Low!
3. Go!

4. Not so.—H.

Dear Helen:

Do the Servicemen in Vietnam still want mail, and could you send us a new address?— WANTS TO HELP

Dear W.T.H.:

E. Paul Stewart, founder and project coordinator for Vietnam Mail Call, Inc., writes that while the war is winding down, the men overseas still need mail, especially at USO, CAN THO in South Vietnam. He adds:

"Full name and address of the sender should be on the envelope which is addressed to Barbara Horn, Assistant Director, USO, CAN THO, APO San Francisco 96215. Ten cent air mail stamp is required. Do not write 'to a soldier or serviceman,' or anything on the envelope other than outlined above.

"You may start your letter with a simple 'Hi.' Tell a little about yourself, your home town, and add anything you wish. State that you would like to write to a serviceman on a pen pal basis. Be sure to give your full name and address on your stationery as well as on the envelope, as they might become separated.

"Used paperback books in good condition will be appreciated by USO, CAN THO, and may be mailed book rate.

"Thank you, Helen, your editors, and each of the newspapers who print your column, for the outstanding effort made in helping to fill requests for mail from Vietnam." —E. Paul Stewart

(Note to Readers: Mr. Stewart and Vietnam Mail Call, Inc. are winners of Freedoms Foundation and D.A.R. awards for their work in channeling over a million pieces of mail to American servicemen overseas. — H)

Dear Helen:

When report cards came out, I got two "Fs" and my Dad says if it happens again he'll cut all my privileges, so there goes the summer!

If he does, I'll find some way to get back at him, either by running away or??? My folks just don't understand me. Please advise.— M.T.J.

Dear M:

Stop resenting and study up a storm. In two months you can still raise your grades to the high "Cs" which should bring your summer out of the doldrums.— H.

as we divide with others." Mrs. W.L. Wood and Mrs. Gene Dillard gave the lesson, "What's New in Carpeting," and the roll call was answered with "the floor covering I would like on my floors."

The minutes were read by Mrs. Bob Dillard and approved. Mrs. Johnson won the door prize, a flower arrangement. The meeting was adjourned by all reading the Homemakers Prayer.

Glazed strawberry pie and Easter decorated cupcakes were served with coffee or cold drinks to the members and 4 children.

Shootout Is SWCHighlight Feature

DALLAS (AP) — Scenes from the Texas-Arkansas "Big Shoot-out No. 2" and Notre Dame's shocking Cotton Bowl victory are included in Humble Oil and Refining Co.'s 1970 Southwest Conference football highlights film presented to SMU Monday.

P. W. Page Jr., western marketing region manager for Humble, presented the film to Hayden Fry, SMU athletic director.

The film, the 24th such presentation by Humble, includes game highlights of each SWC school and portions of Notre Dame's 24-11 victory over No. 1 ranked Texas in the 1971 Cotton Bowl. Each SWC school appears three times except for Rice, which is presented four times.

Stars Shade Pacers in ABA Playoff

By THE ASSOCIATED PRESS
Indiana's hopes of winning a second straight American Basketball Association championship have been put in jeopardy by the Utah Stars.

The Stars shaded the Pacers 120-118 Monday night at Indianapolis to take a 1-0 lead in their best-of-7 series in the West Division final playoffs.

At Miami Beach, the Kentucky Colonels whipped the Floridians 112-103 to win their East Division semifinal playoff, four games to two. The Colonels now will play the Virginia Squires in the East final with the first game scheduled for Richmond, Va. Thursday night.

No games were scheduled in the National Basketball Association playoffs. The NBA action resumes Wednesday night with New York at Baltimore and Milwaukee at Los Angeles.

Merv Jackson and George Stone sparked Utah in a second half rally that beat the Pacers. Jackson, with 28, and Stone with 23, combined for 51 points, 22 of them in the second half. Mel Daniels led the Pacers with 27.

Utah plays again at Indiana Wednesday after which the series shifts to Salt Lake City for the third game Saturday.

Kentucky, led by 27 points from Dan Issel, opened a 19-point lead at 90-71, then withstood a late rally by the Floridians.

A three-point goal by Larry Jones cut Kentucky's lead to 103-100 before the Colonels pulled out of danger on four free throws by Mike Pratt and Darel Carrier.

Warren Davis, Mack Calvin and Al Tucker each threw in 18 points for the Floridians.

Casper Has Withdrawn From Meet
PENSACOLA, Fla. (AP) — Billy Casper, one of this nation's premiere pro golfers, said Monday night he has withdrawn from next week's Tournament of Champions at the request of the U.S. State Department.

Casper said he would serve as a member of the official party for the state visit to the United States of Morocco's King Hassan II.

The golfer said the official dates for the North African monarch's visit would be announced Tuesday in Washington. King Hassan has been invited to make the visit by President Nixon.

The king is an avid golfer and Casper has played with him several times in Morocco, the most recent several weeks ago. Casper said the king had requested that he be with him for the duration of his American visit.

Casper said the king and he have a tentative golf date at Washington's Congressional Country Club with Vice President Spiro T. Agnew.

The Tournament of Champions will be played in La Costa, Calif., beginning April 22. It is for players who have won regular PGA tour events during the past 12 months and carries a guarantee of approximately \$2,000.

"The Dodgers have a head start on everyone here," he said. "They've got a bunch of athletes over there."

"I firmly believe you won't see too many players hitting 40 or 45 homers in the future," Anderson said in an interview.

With the increase of new and larger ballparks, "you will need a superman to hit that many. No one can consistently drive a baseball 425 feet to left or right center and that's what it's going to take."

He said that most of the National League teams already have parks where home run hitting is tough. They are Cincinnati, Los Angeles, Houston, Pittsburgh, Philadelphia, Pittsburgh, San Francisco, San Diego and New York.

"You'll see most teams going with just two power hitters," Anderson continued. "There'll be more guys like Ralph Garr of Atlanta and Bill Russell of the Dodgers."

Anderson made the predictions after being asked if he thought that Reds catcher John Bench, the National League home run king last year with 45, is really capable of producing 40 or more home runs a year.

"John will get his 25, 30 or 35," Anderson answered.

Even Bench himself has expressed doubts of his ability to become one of the current great home run hitters.

Young Twin Hurler Has Two Shutouts

By HERSCHEL NISSEN
Associated Press Sports Writer
Young Bert Blyleven is pitching to spots ... and has American League batters seeing them.

The Kansas City Royals became the 20-year-old Minnesota right-hander's second consecutive shutout victim Monday night, succumbing 2-0 on three hits. Last week, Blyleven blanked Milwaukee on four hits.

The victory, coupled with Milwaukee's 5-0 loss to Oakland, put the Twins atop the American League West by one-half game in their quest for a third straight championship. Elsewhere, Boston outlasted Washington 10-7 and California ripped the Chicago White Sox 3-2. Baltimore, Cleveland, Detroit and the New York Yankees weren't scheduled.

In the National League, it was Cincinnati 7, Atlanta 3; Pittsburgh 4, Philadelphia 3 in 11 innings; San Francisco 5, San Diego 0; St. Louis 5, Houston 4 and Los Angeles 4, Chicago 3.

Blyleven became the youngest player in the majors last season when he joined the pitching-short Twins last June. The first batter to face him hit a home run but he won the game and finished with a 10-9 record and 3.18 earned run average.

"I have more control," the Dutch-born hurler said after spoiling the Royals home debut before a record crowd of 32,728, including Satchel Paige, a native son, who threw out the first ball. "I've been concentrating more in two games this season than ever before. I'm pitching more to spots. I'm putting the ball where I want to put it and I'm getting ahead of a lot of batters, which is 90 per cent of pitching."

The Twins scored off Dick Drago in the second inning on Harmon Killebrew's double and Jim Holt's single and got their second run in the seventh when Cesar Tovar doubled and Rod Carew singled.

Blyleven gave up a double to Cookie Rojas and single to Paul Schaal in the third inning and a single to Amos Otis in the seventh. The third-inning hits came with none out but Blyleven fanned Drago and Killebrew made a diving back-hand stab of Freddie Patek's liner and stepped on third for a double play.

The Red Sox, who had lost three in a row, erupted for six runs in the seventh inning, three more in the eighth and held on despite a five-run Washington counter-rally in the last of the ninth.

Held to one hit—Rico Petrocelli's fourth-inning single—for six innings, the Red Sox broke loose after a walk to Duane Josephson, Billy Conigliaro's single and Doug Griffin's bunt single loaded the bases.

Pitcher Ray Culp drilled a two-run single, Luis Aparicio beat out a bunt and Reggie Smith singled for two runs. The fifth run scored on an infield out and Petrocelli capped the uprising with a home run.

Conigliaro's homer and Joe Lahoud's two-run pinch single, he batted for Carl Yastrzemski, who suffered muscle spasms in his back—put the game out of reach in the eighth. The Senators' rally in the ninth featured Joe Foy's two-run single, Richie Scheinblum's two-run double and Jim French's second RBI hit of the game before Ken Tatum came on to get the last out after Culp had surrendered 15 hits.

Rollie Fingers fired a four-hitter in Oakland's triumph over Milwaukee in a contest twice-delayed by rain. Joe Rudi led off the third with a home run off Lew Krausse and two outs later Sal Bando was hit by a pitch and Rick Monday followed with a homer. Singles by Bando and Dick Green drove in two ninth-inning runs.

Relief ace Wilbur Wood, making his first start since 1968, was sailing along for the White Sox with a 2-1 lead—on homers by Rick Reinhardt and Jay Johnstone—when the Angels took the game away from him in the eighth.

Jim Spencer drew a leadoff walk and scored the tying run on Jim Fregosi's two-out pinch double. Vicente Romo replaced Wood and Sandy Alomar singled to win the game.

ABA Division Playoffs Open Thursday

By THE ASSOCIATED PRESS
The Eastern Division final playoff between the Virginia Squires and the Kentucky Colonels in the American Basketball Association will open Thursday night at Richmond, Va.

The second game is slated for Saturday at Norfolk, Va., after which the series shifts to Louisville for the third and fourth games, April 19 and April 21.

The fifth game, if necessary, is scheduled for Hampton, Va., April 23, and the sixth, if necessary, at Louisville, April 24. The seventh game, if necessary, will be played at Roanoke, Va., either April 27 or 28.

Events Scheduled by the Baseball League

Stargell's Hit in 11th Wins Game

By HAL BOCK
Associated Press Sports Writer
If at once, you don't succeed ... wait around for another chance.

Willie Stargell did not succeed in his first five tries Monday night, stranding four Pittsburgh runners along the way. But he got an extra chance in the 11th inning and delivered the game-winning hit as the Pirates shaded Philadelphia 4-3.

Stargell, who had missed a homer by a foot in the ninth inning, and had popped up with two men on in the seventh, worked the count to 2-2 against reliever Dick Selma in the 11th. Next came a perfect pitch.

"I was jammed," said Stargell. "I got the pitch where I wanted it," said Selma. Still, Willie drilled it for the single that scored Dave Cash with Pittsburgh's winning run.

Elsewhere in the National League Monday, Cincinnati won its first game, belting Atlanta 7-3 with four home runs, San Francisco shut out San Diego 5-0, St. Louis clipped Houston 5-4 and Los Angeles topped Chicago 4-3.

In the American League, Oakland shut out Milwaukee 5-0, Minnesota blanked Kansas City 2-0, California edged Chicago 3-2 and Boston outslugged Washington 10-7.

Cash had opened the 11th for the Pirates with a walk and raced to third on Richie Hebner's third hit of the game. Roberto Clemente struck out bringing up Stargell, who was 0-for-5 at that point.

Bob Robertson's two-out homer had tied the game for the Pirates in the sixth after Don Money had rifled a three-run homer to account for all the Phillie runs. Money has had two hits in five games this season, and both of them are homers.

The Reds halted their four-game slide with a power display against Atlanta that featured a pair of two-run homers by Johnny Bench.

Pete Rose and Jim McGlothlin also homered for Cincinnati while Orlando Cepeda connected for Atlanta.

The seven runs the Reds scored in seven innings against

the Braves equaled Cincinnati's total runs for the first four games of the season.

Gaylord Perry fired a three-hitter and San Francisco celebrated its home opener by blanking San Diego.

The Giants scored all their runs in the second inning with Alan Gallagher tagging a two-run homer and Padre pitcher Clay Kirby contributing four walks and two wild pitches to the rally.

Perry struck out 11 and did not walk anyone in winning his second game.

Jose Cardenal drove in two runs and Lou Brock and Ted Simmons rapped three hits apiece, leading St. Louis past Houston.

Reliever Frank Linzy nailed down the victory, coming out of the bullpen in the ninth inning after the first two Astros had hit safely. Pitcher Wade Blasingame homered for Houston.

Richie Allen ripped his first home run for Los Angeles and Steve Garvey also connected as the Dodgers edged the Cubs. Jim Lefebvre's two-run triple drove in LA's deciding runs.

Chicago catcher Randy Hundley, making his first appearance of the season as a pinch hitter in the ninth inning, twisted his right knee leaving the batting box and had to be carried off the field on a stretcher.

Hundley has a history of knee problems and played only 73 games because of them last season.

Positions Changed in NASCAR Drive

DAYTONA BEACH, Fla. (AP) — Three positions changed in the top 10 of the NASCAR Winston Cup Grand National points standings while Richard Petty continued to build a healthy lead in the race for the Grand National driving title.

The Plymouth driver from Randleman, N.C., has 1,074 points and is 134 in front of his nearest competitor, James Hylton, who has 940 points. Elmo Langley remained in third with 913.

Cecil Gordon, in his fourth year on the circuit, moved into fourth place with 855, dropping Bobby Isaac to fifth. Although Isaac won Saturday's event at Greenville, S.C., his entry came past the deadline and he was not eligible for points.

HHS Golfers Drop Meet to Magnolia

By BILL MOORE
Star Sports Writer
Returning to the HHS sports scene, the Bobcat golfers had a match with Magnolia last Thursday.

Hope had a lot of trouble and fell to the Panthers by a large score of 13½ to 4½.

Jack Turner led Hope with an 80, followed by Jimmy Pruden with 82, Jerry Pruden hitting 87, and Tim Hogan holding an 89. Magnolia's Tim Boering took overall medalist honors with a 76.

In an earlier match a few days before, Hope walloped Magnolia at the Hope Country Club, 11½ to 6½.

Turner took overall medalist honors with a five over par 75, while teammates Jimmy and Jerry Pruden both had an 82, and Hogan not far back with an 86.

In both of the B-matches Hope was defeated by scores of 12-6 and 18-0. Tim White took medalist honors in both matches with a 90 in the first match and a 94 at Magnolia. Today the golfers travel to Texarkana, Arkansas, for a tough match with the Razorbacks.

Hope's first baseball game will be at Blevins on Friday at four o'clock.

The Bobcats have a good fielding team with a good amount of hitting power. A fine pitching staff is available with added bench strength for the fielders.

Although Hope started late, they are shooting for the district and state tournaments.

Palmer First, Barber Second Moneywise

NEW YORK (AP) — Arnold Palmer has reached the \$100,000 mark in golf earnings for the sixth straight year. Palmer boosted his earnings for the year to \$100,828 with an 18th-place finish in the Masters that was good for \$2,650 in winnings, the PGA Tournament Players announced today. He continues to lead pro golf's weekly money list. Miller Barber, who failed to survive the Masters cut, remained second with \$88,884 while Gary Player moved in third place with \$82,015. Palmer has surpassed the \$100,000-mark in his career eight times. Others in the top 10 this year include: 4—Tom Shaw, \$79,331; 5—Jack Nicklaus, \$73,775; 6—Billy Casper, \$64,130; 7—Carlyle Snead, \$59,144; 8—Dave Eichelberger, \$53,641; 9—Lee Trevino, \$53,190, and 10—George Archer, \$50,467.

State Coach to New Post

BATESVILLE, Ark. (AP) — Lavaughn Robertson, assistant basketball coach at Arkansas State University the past two years, has been hired as head basketball coach at Arkansas College. Robertson, 29, succeeds Dick Winningham, who resigned last month after 20 years at Arkansas College.

Tech to Host Tournament

RUSSELLVILLE, Ark. (AP) — An invitational baseball tournament will be held April 26-May 2 on the Arkansas Tech campus here. Officials said seven teams had already entered the 16-team, single-elimination tournament.

Few Youths Believe in American Dream

By MARGARET SCHERF Associated Press Writer

WASHINGTON (AP) — A study prepared for the White House Conference on Youth indicates less than half the nation's young believe in "the American dream."

Asked their opinion on the statement, "Everyone has a chance to get ahead in this country," only 39 per cent of 5,837 youths between the ages of 14 and 24 questioned by the Gilbert Youth Research Corp agreed.

The study is part of 10 task-force reports prepared for the conference called next week by President Nixon in Estes Park, Colo., to consider problems of the nation's young.

"We propose that the Indochina war be made the first order of business of the conference and call for an immediate and complete withdrawal from that conflict," says the task force on employment and the economy.

"It has become clear that the Indochina war is an overwhelming issue with ramifications in many areas being explored by the conference," it says. "We have tried to look beyond the war, but we keep coming back to its impact."

The United States must "admit mistakes openly instead of making vain efforts to rectify errors in judgment under the guise of saving the country from defeat," declares the report of a task force on foreign relations.

It also calls for establishing diplomatic relations with every nation in the world.

The task force on poverty hits at what it calls Congress' willingness to knuckle under to demands of local politicians for control of federal antipoverty programs.

It recommends replacement of the welfare system with "an income program which guarantees every person in America sufficient cash income for decent and adequate standards of food, shelter and clothing."

The task force on drugs could come to no agreement on whether marijuana should be legalized. Instead, it calls for "acceptance of unconventional drug programs run and controlled by individuals involved in the drug subculture."

Of 1,500 delegates scheduled to attend the conference, 1,000 are between the ages of 14 and 24. They will base their deliberations on the task force reports.

Conference literature says 20 per cent are college students, 40 per cent high school students, 35 per cent working youths and 5 per cent in the military.

After Years No Reduction in Pollution

By MICHAEL J. REILLY Associated Press Writer

WASHINGTON (AP) — A consumer study says the federal government—15 years, \$3 billion and seven laws after immersing itself in the fight to clean America's waters—has yet to reduce pollution in any major body of water.

Ralph Nader's Task Force on Water pollution issued Sunday a lengthy report on the government and clean water, culminating a study begun in mid-1969.

Since the government started working on clean water in 1956, the report said, "Its effectiveness to date can be concisely assessed by the virtual absence of any evidence that the seven laws passed and \$3 billion spent by the federal government have reduced the level of pollution in any major body of water."

Action by the government against industrial polluters, the task force said, has been most notable for the back-pedaling involved.

"Federal officials routinely trip over each other in their frenzied retreat from any dealings with polluters which have even the faint air of confrontation," the report said.

The Federal Water Quality Administration suffered some of the task force's most blistering assaults.

Tantrums May Be Epilepsy

Table Tennis Team to See Premier

PEKING (AP) — Members of the U.S. table tennis team are excitedly looking forward to what promises to be the high point of their week's visit to China, a meeting Wednesday with Premier Chou En-lai.

The prospect of talking with the Communist Chinese leader outweighed the team's anticipation of its first matches this afternoon with Chinese table tennis stars. The 15 Americans were told this morning of the meeting with Chou as they left their hotel to practice for today's matches.

The American-Chinese table tennis bouts were expected to attract a capacity stadium crowd of 20,000 spectators.

U.S. team member John Tannehill, a university student from Middleport, Ohio, returned to the hotel after becoming ill this morning, raising the prospect that the American team may be one man short in the exhibition matches.

The other members of the U.S. team were in high spirits and eager for their first meetings with Chinese players.

Besides their meeting with Chou, the Americans on Wednesday will visit the Summer Palace on Peking's outskirts and attend a performance of a Chinese opera.

They fly to Shanghai Thursday morning, where they will spend the night before going on to Canton. They are scheduled to return to Hong Kong Saturday.

The weather was clear and sunny Monday as the American visitors journeyed to the 2,400-year-old Great Wall of China, and Tannehill pronounced it a "museum piece" which the Chinese need as a reminder of their ancient culture.

Said Mrs. Erroll Resek of New York City: "If this had been in the United States it would have been a great tourist attraction and it would be mutilated and cheapened by discarded paper and garbage."

The Americans also visited Chinghua University and met a shy jet propulsion expert who taught at the California Institute of Technology and returned to China in 1946.

The scientist, Chen Wei-chang, reported that his students criticized his teaching methods during the 1968 Cultural Revolution and "my eyes were opened."

May Change Railway Retirement

WASHINGTON (AP) — Congress is considering legislation to raise pensions for railroad employees who, unlike most other retired Americans, did not benefit from this year's Social Security hike.

A bill boosting benefits 10 per cent in the already troubled retirement fund comes before the House when it returns from an Easter break next week.

The Commerce Committee approved the measure but said the \$118-million cost, on top of an unfunded \$132-million increase last year, would impose "a serious potential drain" on the system which has three retirees taking out for every two workers contributing.

Effective over an 18-month period retroactive to Jan. 1, the new hike would give Congress time to review the retirement system's financial structure and study a special commission report due Dec. 31.

The committee noted rail retirees are not eligible for Social Security, recently boosted 10 per cent, and are having difficulty keeping up with rising living costs.

Without an overhaul, the committee said, the retirement fund will be bankrupt in 20 years at the present expenditure rate.

As of March 1, the committee said, the fund contained \$4.282 billion, mainly from payroll taxes on employees and employers. Pensions are paid 1.6 million beneficiaries at a monthly rate of almost \$154 million not counting last year's hike.

Meanwhile, the panel added, rail industry employment has declined from 1.5 million full-time employees in 1947 to 600,000 today.

"There are today approximately one and a half times as many people drawing benefits each month ... as there are paying taxes into the account," the committee said.

Letters To The Editor

This your newspaper. Write to it. Address letters to: Editor The Star, P.O. Box 648, Hope, Ark. 71801.

All letters must be signed, with address so you are identified to the newspaper staff, but if the character of the letter permits we will allow use of a pen-name in the publication, in case you should add "Citizen," or some other word below your real name and address.

Pen-names are permitted when a letter deals only with issues. Direct attacks upon public officials, however, must bear the writer's name for publication.

Editor The Star: I wanted to write this letter and let the public know the progress which has been made by the Sweet Home Cemetery Fund Association in establishing a permanent fund for the upkeep of the cemetery, and to give all an opportunity to make a contribution.

This project was undertaken last year and we now have contributions on deposit with Prescott Federal Savings and Loan Association. If anyone would like to contribute mail check to me made payable to Sweet Home Cemetery Memorial Fund Association for such amount as you feel you would like to contribute and I assure you that the money will be used for one purpose only and that is for the care of the cemetery. If you have any questions any officers of the Association or myself will be most happy to answer them.

Blacks Make Demands at Henderson

ARKADELPHIA, Ark. (AP) — About 150 black students assembled in front of the administration building at Henderson College at Arkadelphia Monday, then presented a list of demands to college president Martin B. Garrison.

The demands called for proportional representation of blacks in all aspects of campus activities and the administration by the fall semester.

The blacks also heard speeches and sang songs in a rally that lasted about an hour. Representatives of the group then presented the demands to Garrison.

Included in the list were six demands to be met by noon Wednesday. These included naming of black cheerleaders, an end to alleged job discrimination on campus, a section in the student newspaper to be devoted to blacks, better treatment toward blacks in dormitories and for no disciplinary action to be taken against any black student who participates in the "black movement" at the college.

The group also requested that black studies be enlarged for the fall semester and that more financial aid be provided to black students.

No alternative was given if the demands were not met.

Can't Make Prisoners Work Out Fine

LITTLE ROCK (AP) — In what may become a test case, an Arkansas law that provides for persons convicted of misdemeanors to work out fines at \$5 a day has been ruled unconstitutional.

James R. Howard, acting as special judge in Circuit Court at Little Rock, ruled Monday that the law was unconstitutional insofar as it applied to Larry Ray Hall, 21, of North Little Rock. Hall, who was working out a fine on the Pulaski County Penal Farm, was ordered released.

The ruling was the first on the validity of the law, Act 156 of 1969, since the U.S. Supreme Court ruled March 2 that a poor person could not be imprisoned to work out a fine.

Howard, serving as special judge in the absence of vacationing Circuit Judge Richard B. Adkisson, did not make a blanket ruling that the state law was unconstitutional because the petition did not seek such a ruling.

Prosecutor Jim Guy Tucker said Monday he anticipated an appeal, which means the case could become a test case. Tucker also said he would ask Atty. Gen. Ray H. Thornton Jr. to participate in obtaining a state Supreme Court decision on application of Act 156 that would "give direction" to municipal courts in the levying and collecting of fines from indigent persons.

Hall was convicted March 29 on a charge of possessing stolen property. The circuit court jury fixed his fine at \$250 but did not assess a sentence. Later, court costs totaling \$41.75 were added to the fine. Hall testified that he had no money with which to pay the fine, no property and no job.

Shippers Are Fighting for Control

WASHINGTON (AP) — Ship owners and port officials are fighting legislation which would give federal environment experts the final say on where and when to dump muck dredged from waterways.

Such groups as the American Institute of Merchant Shipping recommend keeping things the way they are with the Army Corps of Engineers in charge of dumping permits.

Legislation under consideration would switch this control to the Environmental Protection Agency.

The shippers said in congressional testimony, the EPA might want muck dumped farther from the dredging project, adding to over-all costs.

Increased costs may outweigh benefits of the project, says institute president James J. Reynolds. There could also be excessive delay while the EPA mulls ecology matters, he added.

The engineers give enough consideration to ecological factors and this, with their construction expertise, makes the best combination for the job, Reynolds says.

The engineers have been attacked before by environmentalists, but not in memory on this particular point.

"It is logical to conclude that from the standpoint of EPA, environmental considerations will outweigh all others by far and influence the EPA administrator to require that dredged material be transported for disposal far at sea or to inland locations..." Reynolds said.

"I believe that the delay, the waiting for permits, the valuation of the permits by individuals who are not attuned to the engineering methods, or the waterway needs, or the broad concepts of the need of the merchant marine and need of commerce, but only ecology, would add to the cost and delay..."

Edward Langlois of the American Association of Port Authorities told the same House subcommittee: "We are concerned that another agency participating in the lengthy debates on the granting of permits would tie us up to the extent that the cost-benefit ratio could well be jeopardized and the project could then die."

The EPA, for example, could require dredgers to load the muck on a barge and carry it far out to sea instead of, perhaps, dumping it nearby at a

At Southern State College he has held an academic scholarship, lettered on the varsity swim team and been active in intramural sports. He is a senior mathematics major minoring in physics.

No Contest Pleas in Selb Trial

LITTLE ROCK, Ark. (AP) — U.S. District Judge J. Smith Henley Monday accepted pleas of nolo contendere (no contest) from two former Selb Manufacturing Co. employees on charges of conspiring to conceal defective parts made by Selb for the F111 swing-wing airplane.

Kenneth W. Hunn, 50, of Pocahtontas, former vice president in charge of manufacturing for the Walnut Ridge firm, and Melvin C. Davis, 42, of Walnut Ridge, former manager of the Selb plant, changed their pleas from not guilty to nolo contendere late Monday.

The plea means the defendants neither admitted nor denied the charges, but were willing to be sentenced. Henley said sentencing would be in about two weeks.

Defense Attorney W. B. Howard announced the change of pleas following the selection of a jury to hear the trial for the two men.

"While we feel these men might be legally guilty, they are not morally guilty," Howard said. "They acted at the behest and direction of their superiors and did not gain anything financially from the matters with which they stand charged."

Selb had contracts with General Dynamics Corp. of Fort Worth, Tex., to produce parts for the F111.

Hunn and Davis were among seven persons who were indicted in April 1970 on charges of conspiring to conceal unauthorized welds and other alleged defects on the parts made by Selb for the F111.

James L. Townley, 40, of Hurst, Tex., a former quality assurance supervisor for General Dynamics, was acquitted of the charges Feb. 11, following a four-week trial.

Others charged in the case are Harry C. Bass Jr., 56, of Richmond Heights, Mo., owner of the Selb plant; Steven C. Fisher, 28, of Rector, Bass's son-in-law and his assistant in the operation of the plant; Neuman L. Johnson, 50, former chief of outside production for General Dynamics, and Joseph R. Spear, former vendor quality control representative for General Dynamics.

Henley said the next trial probably would be held in July or August.

landfill project, which environmentalists don't like.

The cost of disposal doubles, Reynolds says, for each 30 miles the material is barged. And there would be added costs, for instance, in building ocean-going barges.

A specific case mentioned by Reynolds was the Baltimore Harbor and Channels Improvements project.

More Arrests in Plot to Kill Daley

CHICAGO (AP) — Police say additional arrests are expected in connection with an alleged plot to assassinate Mayor Richard J. Daley of Chicago and the Rev. Jesse L. Jackson, a Negro leader and head of Operation Breadbasket.

The alleged plot was revealed Monday when two black militants—Earl P. Dillard, 37, and Howard Harris, 33—were charged with soliciting to kill Daley and Jackson.

They were arrested on Saturday, five days after two other black militants, who were charged with soliciting to commit murder.

Police declined to link the arrests. A state's attorney's official said the four men were involved in one plot aimed at touching off racial violence in the city.

April 21 hearings were set for Dillard, Harris and the other two men—Charles Whiteside, 35, and Terry Simmons, 38. The four are being held in lieu of \$5,000 bond each.

Deputy Police Supt. John T. Kelly said additional arrests were expected.

Dillard and Harris were arrested, police said, after the department's gang intelligence unit received a tip that an alleged solicitation to commit murder had been made.

Police refused to elaborate further. Capt. Thomas Lyons, director of the police intelligence division, said the murder plot is not a prank but "a serious offense."

A state's attorney's official, who asked that his name not be used, said the alleged plot was connected with an effort by militants to assume power in the black community after making the neighborhoods susceptible to looting during racial strife. Daley was unavailable for comment. His aides said he was in Florida on a vacation after winning election to an unprecedented fifth term April 6.

A spokesman for the mayor's office said he did not know if the mayor had been informed of the alleged assassination plot.

Jackson said in Nashville, Tenn., he was "deeply concerned" about the alleged plot.

"I hope that whatever the facts are established to be," he told an audience at Fisk University, "the law will be soundly enforced in the pursuit of justice as it affects me, the accused and the well being of our city."

Operation Breadbasket is a program of the Southern Christian Leadership Conference.

Mandatory Retirement Is Favored

LITTLE ROCK (AP) — Rep. Wilbur D. Mills, D-Ark., said Monday night that he favored a mandatory retirement for federal employees provided that all federal employees, including members of the Supreme Court, were included.

"I favor mandatory retirement for federal employees — but not until the Supreme Court is covered by such a plan," Mills said. He did not specify at what age he thought retirement should come.

On another topic, Mills said he voted to continue funding the supersonic transport plane "to keep America first." Speaking to the Pulaski County League of Women Voters, he said that devices could be added to the SST to prevent pollution problems that opponents of the project said the plane would cause.

"We have more people with brains out of work than ever before," Mills said. "That's my main concern."

Earlier Monday, Mills told a news conference that he would not give up the chairmanship of the House Ways and Means Committee to be vice president of the United States. Mills, who has been mentioned as a possible candidate for either the Democratic presidential or vice presidential nomination said he would not take the vice president's job.

He has also said he is not a candidate for president, but would accept the nomination if he is drafted.

Ceylon Under Fear of Leftists

By MORT ROSENBLUM
Associated Press Writer
KEGALLA, Ceylon (AP) — "We'll be killed tomorrow," said the policeman in this district center 40 miles from Colombo, Ceylon's capital. He chuckled, but nervously.

The police post at Kegalla is the only one in a district of 700 square miles that hasn't been burned or abandoned since young ultra-leftists went to war against the government a week ago.

Nearby a few officers rolled out a single strand of barbed wire between the post and a rice paddy over which officials said they were sure an attack would soon come. In front of the post were a few sandbags and an ancient decorative cannon rooted in cement.

Twelve of the 120 policemen have deserted. Another 180 soldiers were in the district also.

CHATTER

The old rocking chair is empty today
For Grandmother no longer is in it.
She's off in her car to her office or shop
And buzzes around every minute.

No one shoves Grandmother back on the shelf.
She's versatile, forceful, dynamic.
That isn't pie in the oven, my dear.
Her baking today is 'ceramic'.

You won't see her trudging early to bed
From her place in the warm chimney nook.
Her typewriter clickety-clacks through the night,
For Grandma is writing a book.

Grandmother never takes one backward look
To slow down her steady advancing.
She won't tend the babies for you anymore
For Grandma has taken up dancing.

She isn't content with crumbs of old thought
With meager and second-hand knowledge.
Don't bring your mending for Grandma to do.
Grandma has gone back to college!
